If there aren't any books available for a certain course, there are a few possibilities:
   a. It's a course that takes place during the second semester. These books will get available by February.
   b. The professor still has to send his notes to CuDi.
   c. The professor doesn't publish his books and/or notes at CuDi. To be sure, ask him/her. If the notes are put online on Toledo, you can come print them at CuDi.

If the indicated price is €0.00, the book has been ordered but the price isn't known yet.

6. Click **Book** at the bottom of the page.
